# IRT Key Dates

OASD(RA)

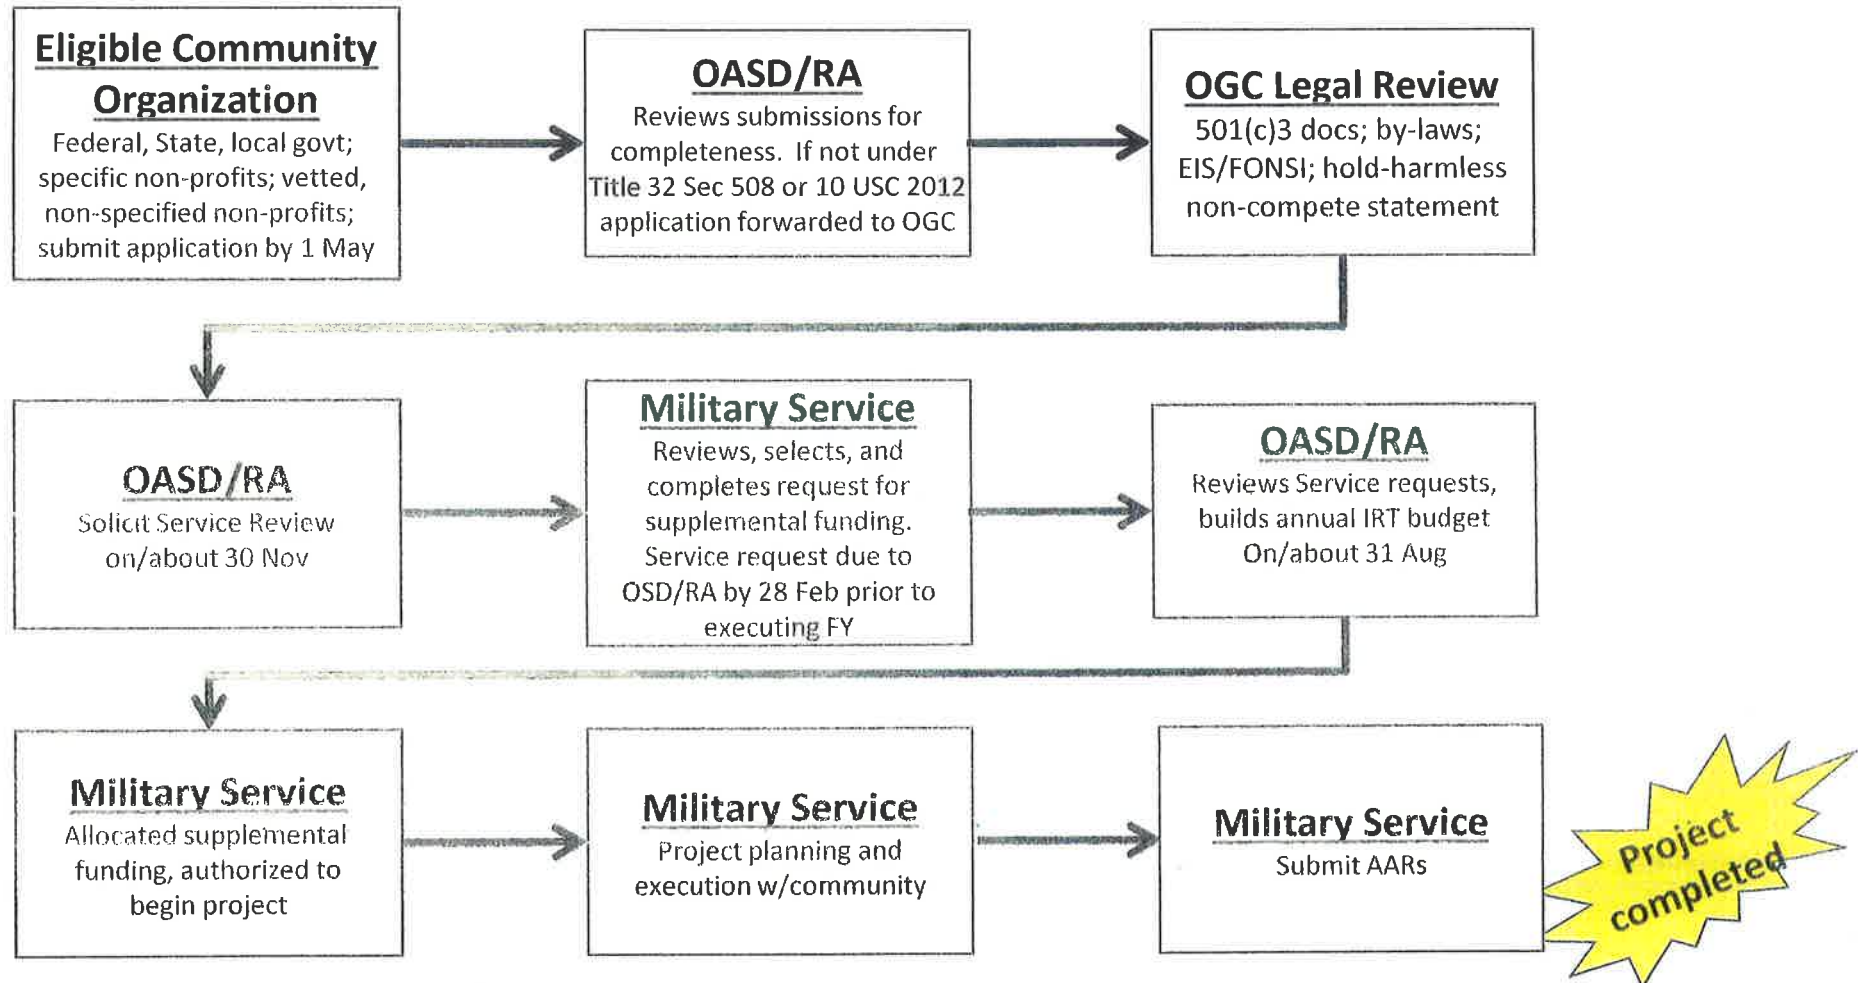

## FY16 Key Event Dates

# IRT Process

## OASD(RA)

# Community Application Tips

## OASD(RA)

Applications most appealing to the Services:

- Aligned with military mission essential tasks
- Submitted by May 1<sup>st</sup> deadline
- Complete application
- Low risk for schedule change (clear property ownership, environmental assessment complete, etc)
- Involve complexity (multiple skill sets working together, logistics challenges of remote locations, etc)
- Create opportunities for Sister Services to train together for Joint interoperability
- Create opportunities to integrate with community personnel and resources (as we would do with our allies or host nations during deployments)

Community projects are neither prioritized nor selected by urgency or merit  
OASD(RA) certifies eligibility (yes or no) & advertises opportunities  
Services select projects based on military training requirements

# IRT Overview

## OASD(RA)

- Typical IRT project
  - Medical, construction, transportation
  - Support by Combat Services/Support (field kitchens, field lodging, communications, etc.) allowed, encouraged
  - In-kind services from community
- Typical IRT “red lines”
  - End product benefits military more than community
  - Commercial development
  - Law enforcement

# IRT Overview

## OASD(RA)

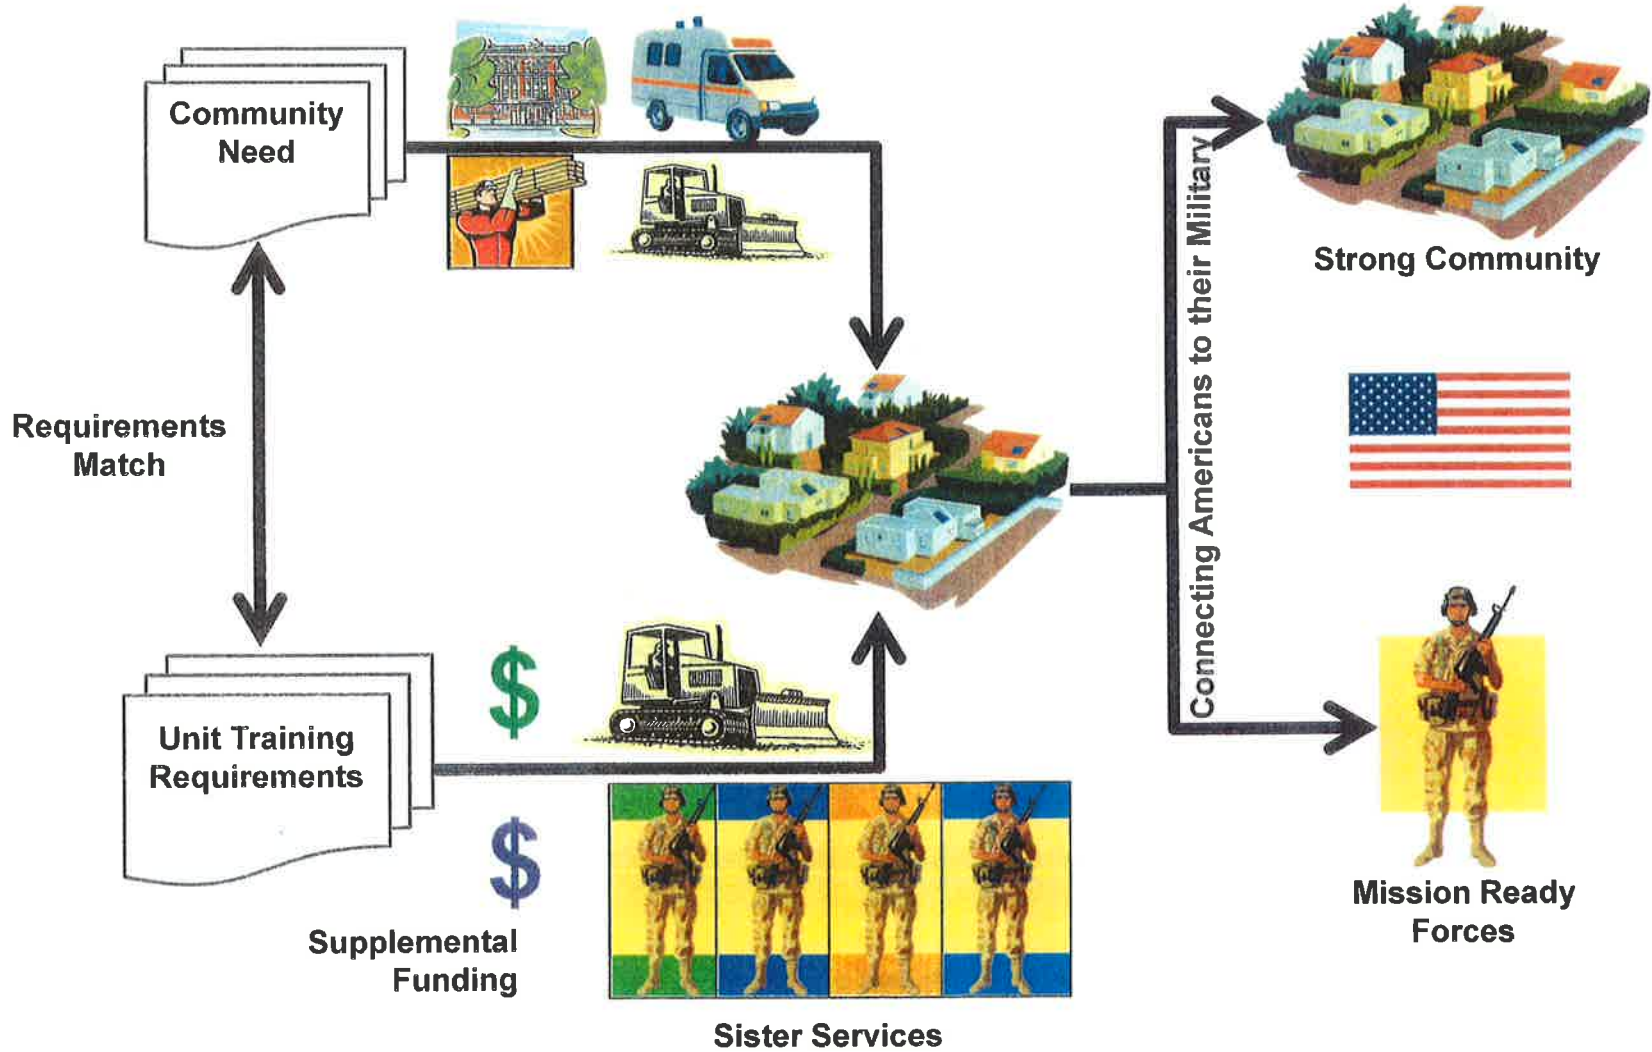

- Authorized under 10 USC 2012 since 1995
- Governing instructions
  - Governed by DoDD 1100.20 (DoDI 1100.20 forthcoming)
  - Service-specific instructions
  - Realistic Military Training authorized by DoDI 1322.28 is an alternative to IRT
- If service is not asking for OSD IRT-supporting funds
  - Service M&RA approval
  - OSD OGC legal sufficiency, organization eligibility, and environmental review
